PhotoPRINT DX™

Intuitive & Powerful

- The user interface is long renowned for its ease-of-use.
- The industry's most powerful layout and output package.
- Seamless Print & Cut design and output.

Recommended

- Windows 2000 / 2003 / XP Pro
 - Pentium II 350 Mhz
- OR
- Mac OSX 10.2 or higher
 - Mac G3 300 MHz

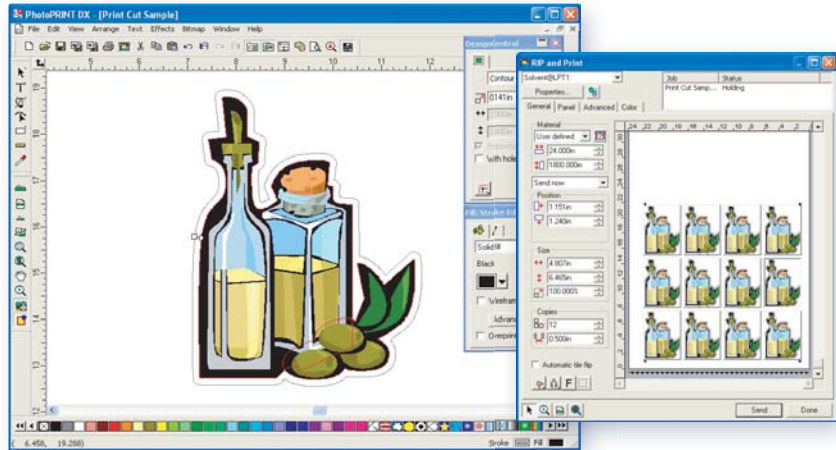

PLUS

- 1 Gbytes RAM or higher
- 200+ Mbytes Install space
- 4+ Gbytes Working space
- 16-bit 1024x768 video
- 4x CD-ROM
- Available USB port for key
- Internet connection
- Available port connection for each output device

The Next Step

- Upgrade a lower level of PhotoPRINT to DX.
- Upgrade an older version of PhotoPRINT or AccuPrint to DX.
- Exchange a competitive software RIP to DX.
- Flexibility to upgrade in the future to PhotoPRINT SERVER or SERVER-ULTRA.

An unparalleled layout package with design capabilities for text, shapes and effects, combined with the versatility to RIP and print to two devices simultaneously. The design and output of Print & Cut decals is straightforward and accurate with this integrated solution.

Is PhotoPRINT DX Right For You?

Benefits

- Ideal for mid-sized production environments.
- Create decals quickly and accurately with the industry's most precise Print & Cut.
- The strongest import filters in the industry give you the flexibility to import from other applications.
- Adding and editing text is a breeze with DesignCentral.
- Integrated design tools make it easy to create, RIP and print all within a single application.
- Large images can be tiled with advanced control of each panel and overlap amount.
- Pantone™ Library and Custom Color Mapping allow you to easily and precisely specify output colors and effortlessly reproduce them again and again.

Features

- Unique DesignCentral window displays options based on selected items.
- Configure two printer setups for out-of-the box production with over 550 built-in printer drivers.
- More than 325 "Certified" ICC Output Profiles are included to give you the results you want.
- Optional Templates give you added productivity and professionalism.
- This product is available for either PC or Mac systems.

Adobe® RIP Engine

PhotoPRINT is the only solution on the market that seamlessly integrates the latest genuine Adobe RIP Engine, guaranteeing accuracy, reliability and compatibility.

From Design to Production...Software at Work.
